### Alumni Feedback Analysis

Alumni can play a very important role in the institute's overall development. They are the key stakeholders which guide our students in various aspects such as preparation strategy for the placement, their various experiences while pursuing higher study, preparation for competitive examinations, etc.

Following questions were considered while taking alumni feedback on the syllabus.

1. Extent of usefulness of Basic Science and Engineering Science courses in understanding problems you solved so far in your career.
2. Publication of research papers, white papers, promotions in organizations.
3. Ability to design and develop system components and processes.
4. New tools learnt during job and its applications.
5. Ability to factor in sustainability, ethical, health, public safety, and environmental issues in the solutions developed by you.
6. Level of comfort in working in groups-initially and at present.
7. Communication skills (level of acquisition during the program, usefulness in job, additional acquisitions during work etc.)
8. Extent of applications of projects, management principles in the projects handled being handled by you.
9. Enhancement of qualifications (higher studies, certificate courses etc.), knowledge, skills etc.
